

Philippines - Economy Report Highlights

Key Activities - 2016 / 2017

The House of Representatives' Committee on Science and Technology officially created the Technical Working on 9 February 2017.

The House of Representatives' Committee on Science and Technology and authors of the Bill were formally briefed on 7 March 2017.

The initial draft of the substitute bill for House Bill Nos. 3578, 3717, 4059, 4320 and 4368 was prepared.

The first public hearing on the proposed Modernization of the National Measurement System was conducted on 4 May 2017 in Dauis, Bohol organized by ITDI with DOST Regional Office 7 and Committee on Science and Technology.

The National Metrology Division improved and finalized the substitute bill based on the comments and issues raised during the Public Hearing.
